

Hello [x],

My name is Taylor Daan, and I am a student in the AP Capstone AP Research course. Currently, I am completing a research paper on the impact of social media algorithms upon small content creators.

To complete the research study, I require the participation of a few small content creators to complete an anonymous survey that will take between 1 and 2 minutes to complete. A few participants may also be invited to participate in an interview about the survey.

The interview will discuss the impact of changing visibility and engagement with content upon small content creators, and the impact of such discussions on the creators themselves. All responses will be anonymous and will not collect any personally identifying information. Any participation in this interview is voluntary and will be utilized for only my research paper and presentation.

If you are willing to take part in this interview, I would be thankful for the opportunity to discuss this topic with you. Thank you for your time!
